Appendix

Figure A1: Training-Related Changes in Drift Rate per Participant. The mean drift rate of each training session averaged across tasks (face-, digit-, and pattern-matching task) is shown in an individual box per participant (numbers 1 through 30).
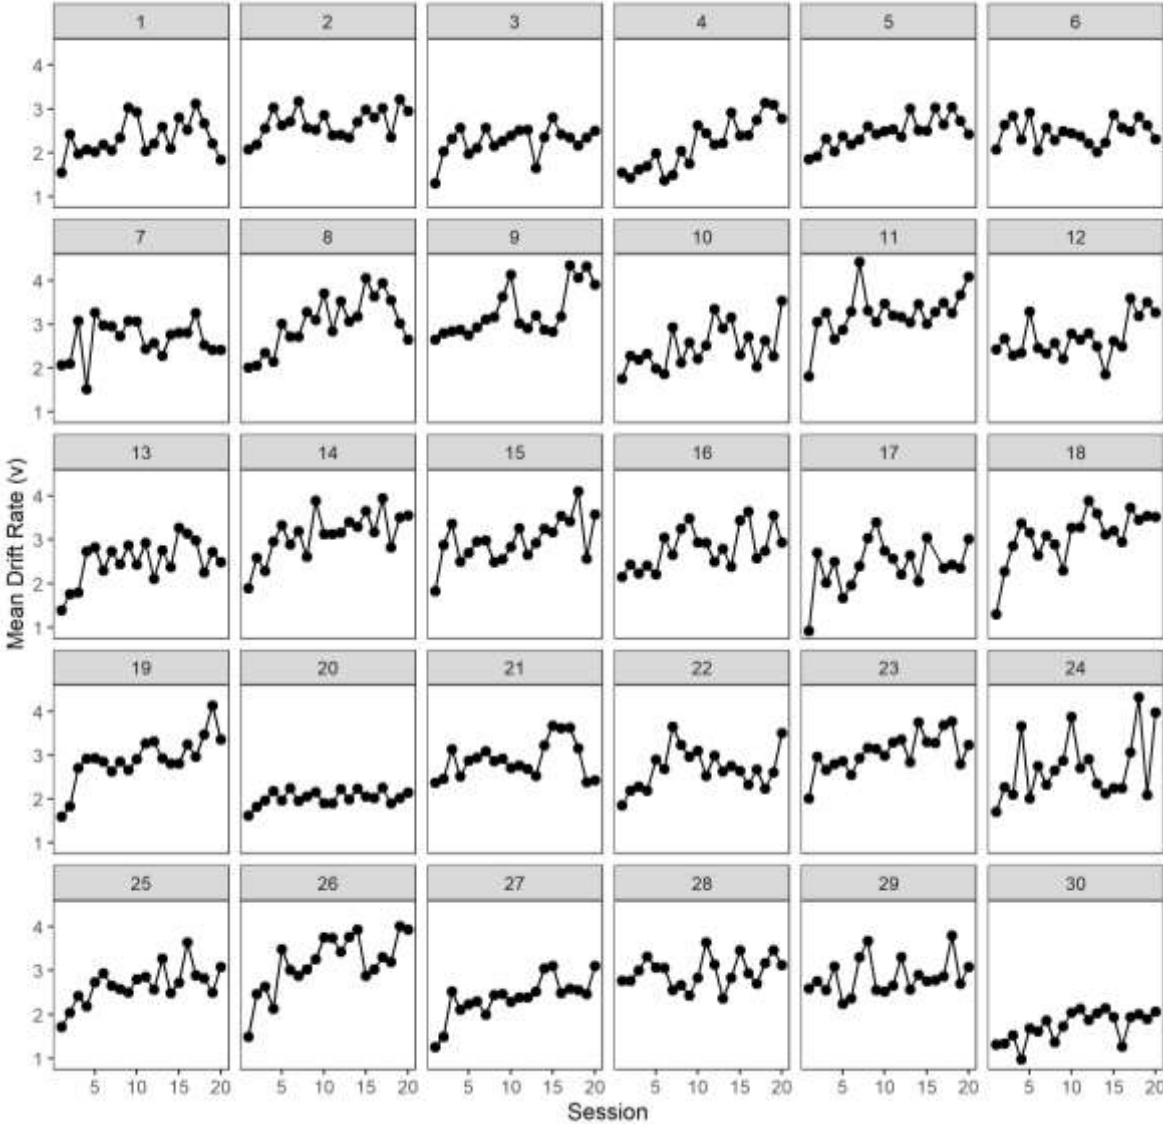

Figure A2: Training-Related Changes in Boundary Separation per Participant. The mean boundary separation of each training session averaged across tasks (face-, digit-, and pattern-matching task) is shown in an individual box per participant (numbers 1 through 30).

Figure A3: Training-Related Changes in Non-Decision Time per Participant. The mean non-decision time of each training session averaged across tasks (face-, digit-, and pattern-matching task) is shown in an individual box per participant (numbers 1 through 30).
